Summary

I'm an avid learner. Everytime I meet the new problem, i search the solution in the internet or ask someone after I spend much time solving it. I like reading book because I can get knowledge from it and some knowledges can help me to solve problem. I always help other people when they need the help.

Skill Highlights

_ I can teamwork well. When i have a mini project about the web programming with my team, i assigned the tasks for my teammates and i always control my team to be on time and i make sure that the teammates have the fair tasks and the member always do the job they are best at.

_ I can organize time. I usually have many assignments but i haven't been late for deadlines.

_ I work with my highest responsibility. I just do the task that i believe I can complete it.

Education

I am a third-year student in faculty of IT of University of Sciences.

Motivation

I want to be a member of your company because I have known this company for a long time. This enterprise has many quality products and I want to be a person who can make products with your employers. Working in your company, I will have chance to improve my skills and knowledge.
